

Cheetah Series

EP-450XP-C1G/B (EP-520XP-C1G/B)

The Cheetah series power supplies are awesome PSU acquired Cheetah's quiet and powerful character. Cheetah's noise level runs **only 23dBA at 60% load**. In order to protect gamers' eyes, Cheetah series are facilitated with patented and unique shielded power lead dedicated for AGP card, this lead will **eliminate the monitor's "Snow" and "Water Wave" phenomena**.

The green concept technology, and as well as special **Titanium plated** casing allow the PSU reduce radiation emitted. In addition, the Cheetah series has an excellent design with **three fans**, open-window casing and the perfect **UV reflective wrap**. Of course, the cool mirroring black color is gamer's first choice. **SATA ready** is also a warm considering for gamer.

Specification

AC Input	100-120Vac/200-240Vac
Current	10/6A
Frequency	60/50Hz
DC Output	
+3.3V	26A
+5.0V	35A
+12V	12A
-12V	1A
-5V	0.8A
+5VSB	2.5A
Max Load	450W
Dimensions (WxHxD)	6"x3.5"x6.25"
Net Weight	5lb
Warranty	3 years limited
