

350W Micro ATX PSU

EP-350FX

The unique **dual fan** 350W Micro ATX is a **Prescott ready** power supply. This high power mATX has the new **sliding sockets** which allow it to pair up with many mother boards such as P4, LGA socket 775 boards. There is no cables need for pin conversion and no voltage drop due to 20 to 24 pin change. Also, less cabling problem inside the chassis make it easy for system installation. And with 22A power from +12V rail the EP-350FX is able to **support high-end VGA** card in mATX system!

Features

- Independent Voltage Circuitry
- Push-Pull Dual Fan Design
- Serial ATA ready
- Silent Technology
- All output rails with OVP/SCP/OCP protection
- Lin input fuse protection
- 100% Hi pot test and burn in
- Output regulation designed within 3%

AC Input	100-240 Vac 6/3A 60/50 Hz						Peak
DC Output	+3.3V	+5V	+12V	-12V	-5V	+5VSB	400W
Max Current	18A	24A	22A	0.3A	0.3A	2A	
Combined Watt	Total 335W			Total 15W			
Total Watt	350W						
Load Regulation	± 4%						
Dimension	(12.5cm X 6.5cm X 13.5cm)
